# What is Excess Wear and Tear?

Wear and tear on a vehicle is almost unavoidable. We can all relate to the occasional minor scratch, ding, or small dent in the paint. These things are the expected result of every day use of a vehicle. After all, nothing stays new forever.

However, when the wear and tear on your leased vehicle goes above and beyond what's considered normal use, you may face unexpected charges when you return your vehicle at the end of your term.

The **Wear Pass Excess Wear & Tear Plan** is designed to eliminate these end of lease charges.

With **Wear Pass** you can relax – you don't have to be on constant guard for unexpected mishaps with your leased vehicle. You can lease with confidence knowing that you're protected from the unexpected.
